**Capital Improvement Plan**  
Fiscal Years 2021-22 through 2026-27

**DRAFT**

Adopted: \_\_\_\_\_

# **City of Jonesville**

## **Capital Improvement Plan 2021-22 through 2026-27**

### **Overview**

The Capital Improvement Plan (CIP) is a six-year schedule of all proposed major capital improvement projects including project priorities, cost estimates, methods of financing, and annual estimated operating and maintenance costs for the proposed projects. The CIP, therefore, is a tool to assess the long-term capital project requirements for Jonesville. Since capital improvements are spread across many community needs (fire protection, police, sewer and water, parks and recreation, municipal administration, etc.) the CIP helps to prioritize these projects across the City over time.

### **Capital Improvement Projects**

Capital improvements are major, infrequent expenditures, such as construction of a new facility, a major rehabilitation or repair to an existing facility, or the purchase of major equipment. Capital improvements are non-recurring expenditures that tend to be both large in physical size and cost, and have a longer useful life. Examples of capital projects include:

- Construction of a new City building
- Major road construction, such as bridge replacement or repaving
- Extension of a sewer and/or water line
- Purchase of a new fire truck
- Major repairs and/or renovations to the City Hall or Police Station
- Creation of a new park

The following projects are examples of expenditures that would be categorized as operating expenses, and would not usually constitute a capital improvement project:

- Purchase of new office furniture
- Purchase of new/used small equipment (lawn mowers, copiers, individual computers, etc.)
- Recurring maintenance of existing facilities
- Minor repairs to buildings or equipment
- Minor improvements to existing buildings (carpeting, painting, fixtures, etc.)

### **Major Expenditures**

The term “major expenditure” is relative – what is major to Jonesville may be minor in another community. A capital improvement for the purposes of the Jonesville CIP is a major, non-recurring expenditure if it meets one or more of the following criteria:

- Any acquisition of land for a public purpose which costs \$5,000 or more.
- Any construction of a new facility (City building, water or sewer lines, parks), or any addition to an existing public facility, the cost of which equals \$5,000 or more and has a useful life of five or more years.

- A non-recurring rehabilitation (not including annual/recurring maintenance) of a building, its grounds, a facility or equipment, the cost of said rehabilitation being \$5,000 or more with a useful life of five or more years.
- Purchase of major equipment which, individually or in total, cost \$5,000 or more with a useful life of five or more years.
- Planning, feasibility, engineering or design studies related to an individual capital improvement project with a cost of \$5,000 or more.

### **Benefits**

Completion of a six-year Capital Improvement Plan is a requirement of the Michigan Planning Enabling Act (Public Act 33 of 2008). Beyond meeting the State law, adoption of a CIP is beneficial to elected officials, administrative staff and the general public. Among the benefits of an adopted and well-maintained Capital Improvement Plan are:

- Prudent use of taxpayer dollars;
- Focusing expenditures on the needs of the community;
- Prioritizing projects across the needs of the community;
- Generating community support by inviting public input;
- Promoting economic development;
- Improving eligibility for State and Federal grants;
- Providing an implementation tool for the goals and objectives of the Master Plan;
- Transparency in identification of high-priority projects;
- Coordination/cost-sharing between projects.

Each year the Capital Improvement Plan will be revised for the next fiscal year. At the end of each fiscal year, the projects completed during that year are removed from the plan and an additional year's projects are added. Projects can then be adjusted in priority to reflect actual resources available. As the CIP is annually updated, a continuous relationship will be maintained between the CIP and the annual budget.

<b>Est. Cost</b>	\$27,000	-	-	-	-	-

Project Description and Location	
<p>Several exterior repair and maintenance issues need to be addressed in the near future at City Hall. Bid specifications are currently being developed for these projects that were originally planned for the 2020-21 fiscal year.</p> <p>Brick Repair (\$12,000) – Weather, salt, and time have caused deterioration of brick on parts of the building, especially on the east side near the sidewalk. The repairs would include replacement of brick, as needed, tuck pointing joints and sealing.</p> <p>Eave Repair (\$3,500) – The project would replace deteriorated sections of wood eave boards on the east side of the building.</p> <p>Painting (\$11,500) – Wood doors, windows, and trim are in need of painting to protect from the elements.</p>	

Project Need and Impact
<p>Proper repair and upkeep of the facility will allow its continued use for years to come. These improvements have been carried over from prior year budgets. Some continued carryover can take place, if funding constraints present themselves. However, continued deferment could increase repair costs.</p>

Related Costs and Future Funding Needs
<p>Maintenance and upkeep of this historic building will have continued costs over time.</p>

Project Description and Location
<p>It is anticipated that several one-time capital projects will be undertaken over the next several years to contribute to the professional operation and appearance of the Sunset View Cemetery. The following is a list of projects and estimated costs prioritized by the Cemetery Committee.</p> <p>FY 2021-22 – <b>\$12,000 - Future expansion planning, historic monument repair</b></p> <p>FY 2022-23 – \$12,000 - Reserve funding for future expansion, historic monument repair</p> <p>FY 2023-24 – \$12,000 – Reserve funding for future expansion, historic monument repair</p> <p>FY 2024-25 – TBD – Cemetery expansion</p> <p>FY 2025-26 – \$2,000 – Historic monument repair</p> <p>FY 2026-27 – \$2,000 – Historic monument repair</p>

Project Need and Impact
<p>The Cemetery Committee will review the project list annually and update as needs change and conditions warrant. Funding for the projects is intended to come from the allocated assets that were transferred with City incorporation. These projects are intended to assure the professional operation and appearance of the Cemetery.</p>

Related Costs and Future Funding Needs

Fiscal Year	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27
Est. Cost	\$200,000	-	-	-	-	-

Project Description and Location
<p>This will replace the out of service tanker 5-61. The new or used truck will be a Wildland Urban Interface/Mini Pumper type truck. This decision was made after much study was done on truck utilization versus cost. In 2015 the department purchased a 3000-gallon tanker with a 1500 gallon per minute pump. This provides a great deal of water to any scene. The purchase of another tanker ties up a great deal of funds for a truck that is very specialized. With funding limited and rising costs of trucks, the department feels that the Wildland Urban Interface/Mini Pumper type truck will cover many roles. In doing this it will replace the out of service 5-61 tanker. The new truck will carry at least 300 gallons of water and have at least a 300 gallon per minute pump to serve the communities that we cover while giving us ISO points for increased pumping compacity.</p> <p><b>This type of truck could be utilized on every type of call that the department responds to.</b></p>

Project Need and Impact
<p>5-61 tanker is out of service.</p> <p>This type of truck will be a benefit to all of the areas that we serve, rural and urban. It will also be used in many roles on almost all of the calls that we respond to.</p>

**Project Description and Location**

Prior years Capital Improvement Plans called for the resurfacing of the tennis courts at the Wright Street Park during the 2016-17 fiscal year. However, the recently completed Recreation Master Plan indicates that upgrades and improvement to existing parks, including playground equipment, placement of a dog park, additional ball fields, and walking/ biking paths rank higher community priorities.

Preliminary concept plans have been developed for Carl Fast Park and Wright Street Park. It is anticipated that future improvements to these parks will be facilitated with State grants.

Prior to application for grants, it is necessary to update the 5-year Recreation Plan. The City will then be eligible for grant application.

**Project Need and Impact**

The need results from input received through the Recreation Master Plan survey. The concept plans will provide for the coordinated development of future improvements at the parks.

**Related Costs and Future Funding Needs**

There will be implementation cost associated with future construction and upgrades at the parks. Improvements will also require future maintenance. These costs will be evaluated through the development of the concept plan.

**Project Description and Location**

This project involves improving sidewalk ramps where they approach public streets over time so that they comply with current standards of the Americans with Disabilities Act (ADA) for ramp slope and installation of detectable warnings. This item would also permit the extension of new sidewalk along streets where they are not currently installed. Prior to construction, intersection and optional extension location will be identified and prioritized. This item includes repair of sidewalk sections that present unsafe conditions, as well.

The \$10,000 cost estimate would generally cover upgrades to the ramps on each corner of a street or the extension of sidewalks along one side of a typical city block.

**Project Need and Impact**

The upgrade and extension of the sidewalk system is a component of assuring a safe and walkable community. A complete sidewalk network increases access to schools, businesses, and neighborhoods, as well as active recreation opportunities.

**Related Costs and Future Funding Needs**

New sidewalks will require periodic maintenance to address cracks and heaving. Actual annual cost will be reviewed in future year plans when priorities are identified.

**Project Description and Location**

This project would address short-term traffic congestion issues that take place in the vicinity of Gaige Street and M-99 (Olds St.). City staff has been working with representatives of the Michigan Department of Transportation (MDOT), the Michigan Economic Development Corporation (MEDC) the Hillsdale County EDP, and business interests to explore options. A preliminary design and cost estimate for an extension of Reading Ln. was completed in 2017, with right-of-way secured as well. Anticipating additional engineering and study, the LDFa has budgeted \$45,000 to be used toward additional engineering and needed traffic studies.

The final design of feasible improvements has not been determined at this time.

**Project Need and Impact**

The project is needed to address traffic congestion and to improve traffic circulation in the vicinity of M-99 and Gaige Street. Engineering would determine an appropriate number of potential solutions that could be agreed to by the parties. State and Federal grant opportunities will be explored to offset project costs.

**Related Costs and Future Funding Needs**

Any new or expanded streets will have ongoing winter and preventative maintenance costs following construction.
