City of Jonesville

Fiscal Year 2022-23 Operating Budget Introduction

The City of Jonesville operates on a fiscal year that begins July 1st and ends on June 30th. The process of developing the fiscal year operating budget begins in the first quarter of the calendar year. Department Heads prepare and submit department goals with a draft operating budget, and identify projects for the five-year Capital Improvement Plan. City staff meets with budget committees for the Downtown Development Authority (DDA) and Local Development Finance Authority (LDFA) to develop recommended budgets for the two boards. A City Council Budget Committee reviews the proposals and offers its input to assist the City Manager and Finance Director in preparing a recommended budget for submittal to the City Council, as a whole. The process typically takes place during the months of February through May.

Pursuant to Section 9.3 of the City Charter, on or before May 31 each year the City Manager shall submit to the council a recommended budget for the next fiscal year which, considering any anticipated unexpended balance or deficit at the end of the current fiscal year, is within the tax limit and other anticipated revenue of the city. Such recommended budget shall include therein at least the following information:

- (a) The detailed estimates by the City Manager, with supporting explanation of proposed expenditures for each office, department, and board of the city, with a comparison of the actual expenditures for the corresponding items for the last two (2) fiscal years in full, and the expenditures for the current fiscal year to December 31.
- (b) Statements of the indebtedness of the city, showing the principal and interest requirements for the next fiscal year, the debt authorized and unissued and the condition of the sinking and debt retirement funds, if any;
- (c) Detailed estimates of all anticipated revenues of the city from sources other than taxes, with a comparative statement of the amounts estimated for and actually received from each of the same or similar sources for the last two (2) years in full and for the current fiscal year to December 31.
- (d) A statement of the estimated accumulated cash and unencumbered balances, or deficits at the end of the current fiscal year; a statement of such other information as may be required by MCL 141.421 or any other law.
- (e) An estimate of the amount of money to be raised from taxes to be levied, from delinquent taxes, and the amount to be raised from bond issues which, together with available unappropriated funds and any revenues from other sources, will be necessary to meet the proposed expenditures;
- (f) Such other supporting information as the council may request; and
- (g) A multiyear capital improvement program.

The recommended budget was presented to the City Council at work session meetings on May 4, 2022 and May 18, 2022. The operating budget was adopted by City Council following a public hearing at the June 15, 2022 regular City Council meeting.

BUDGET STRUCTURE

The operating budget includes several funds: General Fund, Streets, Component Units, and Enterprise Funds. Revenue sources and allowable expenditures for the respective funds vary slightly.

General Fund

The primary sources of general fund revenues are property taxes, stated shared revenues (from sales and use taxes), franchise fees, interest income, and miscellaneous revenues. The revenues are generally discretionary and can be allocated by the City Council to fund services in any of the General Fund departments. General Fund revenues are used to support City administration, elections, assessing and finance, cemetery, police, fire, and parks and recreation.

Streets

Major Streets in the City are funded primarily through state-shared revenue, or so-called Act 51 dollars from gas taxes and registration fees. Local Streets are funded with Act 51 dollars and property taxes. 28.6% of property tax revenues are allocated to Local Streets. This matches the proportion of taxes allocated to streets prior to incorporation as a City to match the previous Village designated street millage. Streets are designated as Major or Local depending upon whether they serve primarily local residents or a larger population, subject to State and Federal criteria.

State Highways are maintained through a contract with the Michigan Department of Transportation (MDOT). US-12 (Chicago Street) and M-99 (Evans Street/Olds Street) are State Highways under the jurisdiction of MDOT. The contract compensates the City for winter maintenance (plowing and salting) and some routine maintenance activities like sign repair and mowing of state-owned road shoulders. MDOT maintains responsibility for major maintenance and repair, including traffic signal maintenance and street paving.

Component Units

The Local Development Finance Authority (LDFA) and Downtown Development Authority (DDA) are special districts that support the growth and development of manufacturing/industry and Downtown businesses, respectively. These districts reinvest property tax revenue from the growth of the district to maintain public property and parking areas, and to promote further growth and development of jobs and tax base in the districts. Expenditures follow approved plans for each district. Revenues generated in one district may only be expended within that district.

Enterprise Funds

The Sewer and Water Departments operate from service charges to customers for sewer and water use. The revenues received for those services may only be used to deliver those services to the customer.

CONSIDERATIONS FOR THE FISCAL YEAR 2022-23 OPERATING BUDGET

The City has a significant number of capital projects coming together in Fiscal Year 2022-23. Along with previously planned projects, some projects have been added to the fiscal year. These include unexpected projects like repair to City Hall due to significant storm damage in the summer of August of 2021. DDA capital projects are being advanced from 2024 to coordinate with a Michigan Department of Transportation (MDOT) US-12 paving project scheduled for 2023. A grant-funded project originally scheduled for 2022 to resurface Maumee Street is currently receiving State approvals and is expected to be bid and completed in the next fiscal year. Those projects with State deadlines will be prioritized as projects proceed.

Highlights of the FY 2022-23 Operating Budget are as follows:

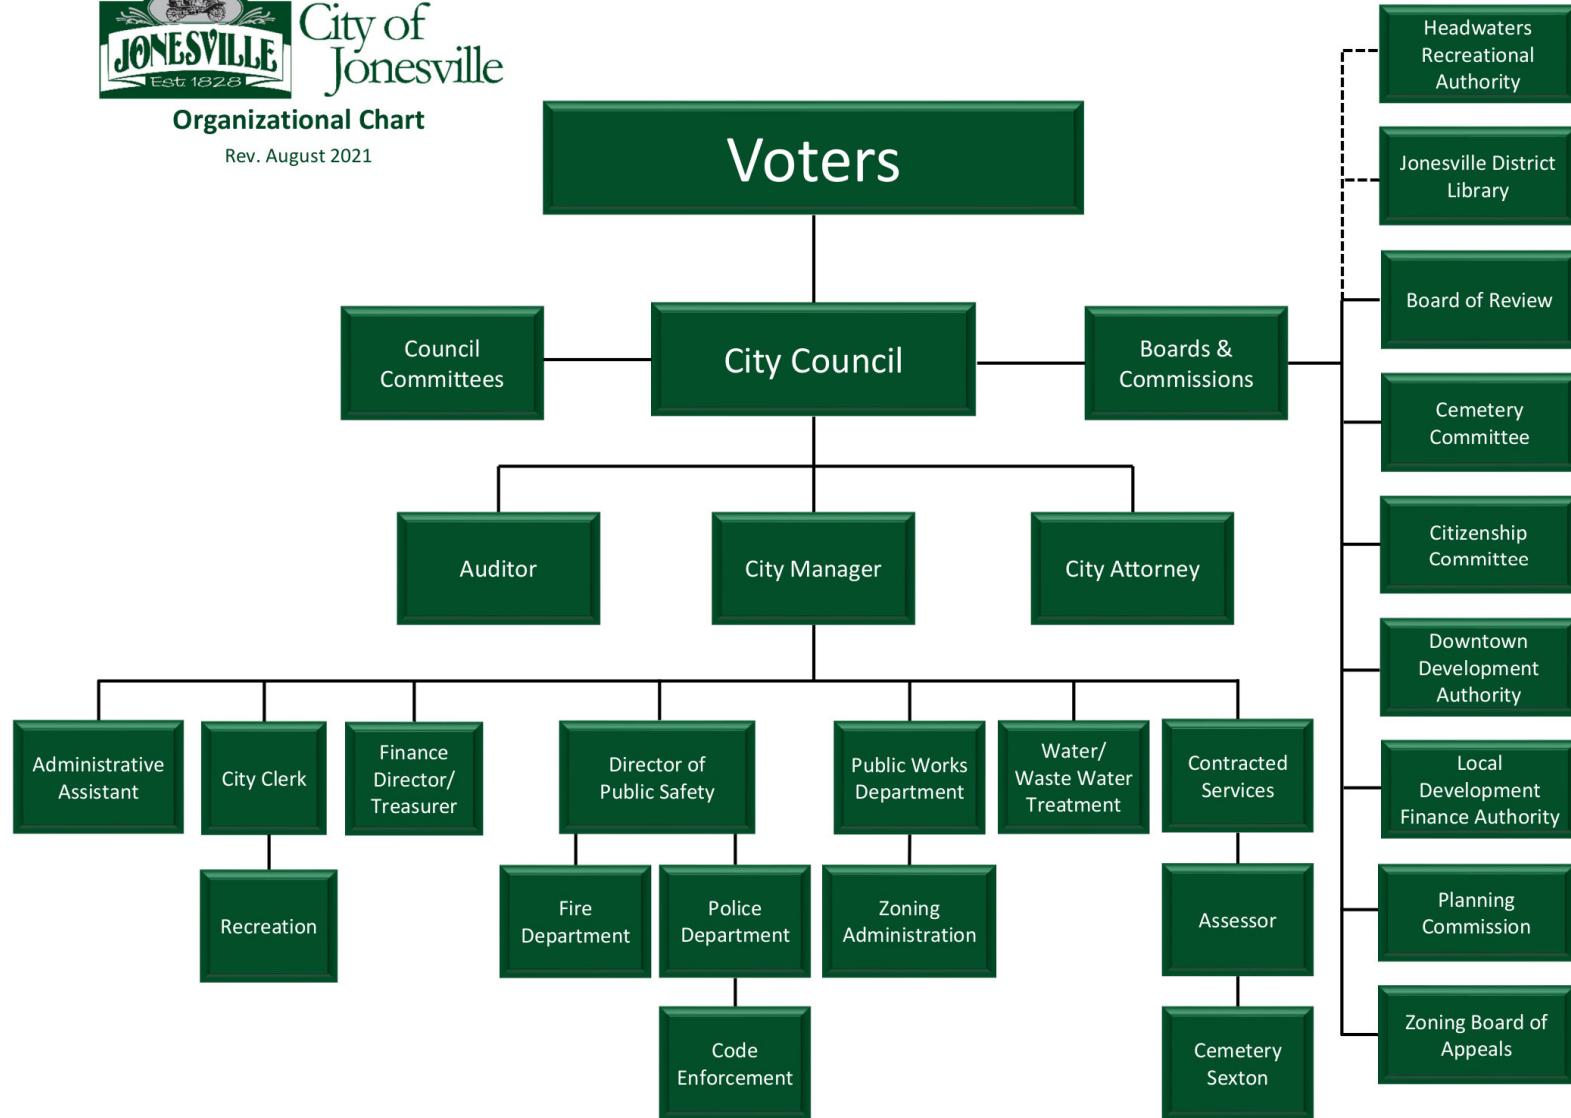

- A small increase of 3.3% in property tax revenue is anticipated as a result of increasing property values at the close of 2021. The increase in Taxable Values is limited to the rate of inflation under Proposal A and factors in properties whose values become uncapped at time of sale. The Consumer Price Index increased by 7% in 2021.
- Constitutional State revenue sharing is projected to increase by about 5%. The Statutory portion of revenue sharing is projected to increase, as well. Act 51 revenues are projected to increase by just over 5%. State-shared revenues had declined significantly after the 2008 recession, but are now beginning to exceed their pre-2008 values.
- The City has entered into a six-month option with a private developer for the potential redevelopment of the former Klein Tool building. As development concepts are finalized, the City will be working with the developer and State on public-private partnership opportunities to assist with the infrastructure and other public improvements to make the development project possible.
- Reconstruction of West Street is slated to take place in FY 2022-23. The project will include abandonment of a 4-inch water main, with connection of building services and hydrants to a previously constructed 12-inch main.
- The City adopted a new wage scale for all full-time employees in 2019 to aid with employee retention and recruitment. This was the first update to the scale in over a decade. The budget reflects, as recommended by the City Council Budget Committee, an increase of 3.5% to remain competitive in employee compensation.
- The Police Department is piloting an innovative 48-hour on, 96-hour off schedule to recruit new full-time officers. This unique scheduling is intended to address employee quality of life to compete for officers during a statewide shortage of new recruits.
- The planned demolition of the Wright Street Park tennis courts will take place in this fiscal year. The update of the City's Recreation Plan will include community outreach to plan the future use of this area of the park, as well as other desired improvements to this and other City public spaces.
- The City is coordinating expansion of the Sunset View Cemetery with Jonesville Community Schools, and exploring a swap of land to provide additional cemetery area to serve the community for the next several decades.
- The Downtown Development Authority is working with the MDOT to study a road diet for Chicago Street in the Downtown, to explore the feasibility of reducing traffic lanes to improve pedestrian safety and functionality of on-street parking. In addition, construction of an updated Downtown streetscape will be coordinated with the MDOT paving project.

- The Local Development Finance Authority will continue to contribute \$25,000 to the Water Fund to offset costs associated with the Iron Removal Plant improvements.
- The Michigan Department of Environment, Great Lakes & Energy (EGLE) has mandated that municipalities replace certain private water services. The program falls under Lead and Copper Rules (LCR). Although galvanized iron water services in the City are no longer connected to lead water lines, many years ago they likely would have been. The LCR requires these services be replaced. The City is coordinating the early rounds of replacement with Maumee and West Street construction projects. Regular water samples have shown no actionable levels of lead in water in the City.
- Planned increases in water and sewer rates will result in increases to the minimum residential water bill (up to 2,000 gallons) of \$1.12 per month. The average residential bill (4,000 gallons) will increase \$1.72 per month. These increases are necessary to address fixed costs for operation of the Iron Removal Plant project, and projected work that will be needed in future years to the Waste Water Treatment Plant.
