Discussion ensued regarding the Michigan Department of Transportation (MDOT) intention to complete a signal modernization project in 2019. This project would result in the replacement of the decorative mast arms that support the intersection traffic signals along Chicago Street at the Downtown intersections. The replacement signals are referred to as "Box Spans" and include a single galvanized pole on each corner of the intersection and wires spanning each of the four legs of the intersection to support the signals. Due to the numerous questions regarding this project from DDA members, and City Council members as well, a special meeting will be held Wednesday, September 20, 2017 at 7:30 a.m. A Representative from MDOT will be in attendance at this meeting to answer any questions regarding the project at that time.

Manager Gray provided updates on the Klein Tool building, Ramshackle Brewing Company, Jonesville Comet banners, M-99 bike path reconstruction, and the flowers in the downtown area for 2018.

The special Meeting is scheduled for Wednesday, September 20, 2017.

The next regular scheduled meeting will be November 14, 2017 at 7:30 a.m.

Meeting adjourned at 8:23 a.m.
